

# World Interfaith Harmony Day

## How to be a Good Guest at Your Neighbor's House of Worship

Panelists from major world religions will discuss how to be a good guest at your neighbor's house of worship, how to be a good host when welcoming people of other faiths into your house of worship, and teachings and traditions of hospitality and tolerance from their religions. There will also be break-out groups for the audience to discuss and reflect upon these themes based upon their own experiences.
